DaTSCAN	datscan.nii.gz
MRI / T1w	T1w.nii.gz
Report date	29-Jun-2026

DaTSCAN

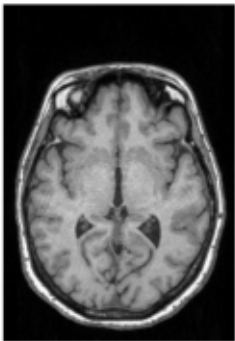

T1w

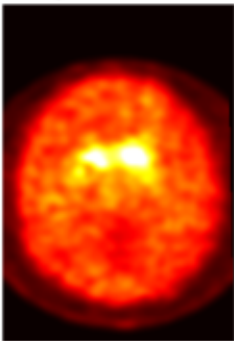

DaTSCAN / MRI qualitative images

Axial view

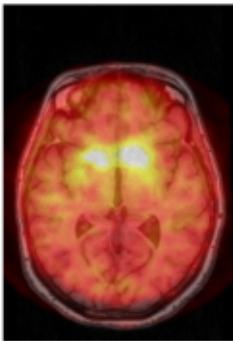

MRI / T1w

Registered DaTSCAN

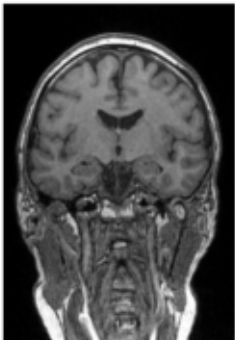

Overlay

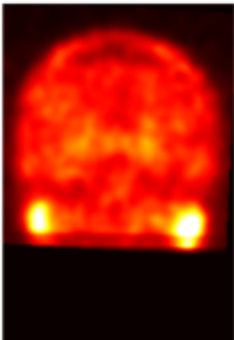

Coronal view

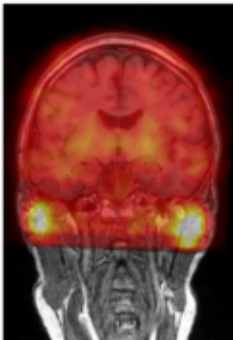

MRI / T1w

Registered DaTSCAN

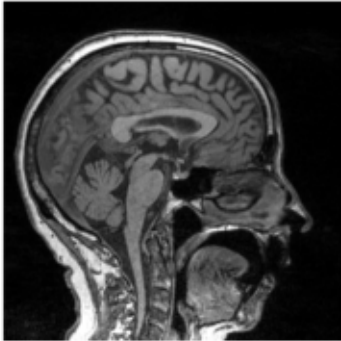

Overlay

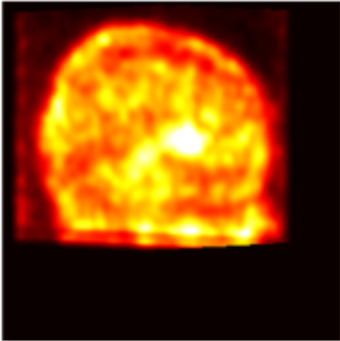

Sagittal view

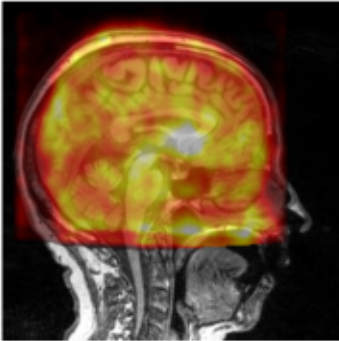

MRI / T1w

Registered DaTSCAN

Overlay

DaTSCAN quantitative biomarkers (SBR)

SBR by region

Region	Right SBR	Left SBR	Bilateral SBR
Striatum	1.2125	1.3222	1.2669
Caudate	1.4510	1.3499	1.4026
Putamen	1.0379	1.3044	1.1740

DaTSCAN symmetry biomarkers (mean)

Mean symmetry values by region

Metric	Region	Right	Left	Bilateral
Incc	Caudate	0.0056	0.3263	0.1615
Incc	Putamen	0.0000	0.1791	0.0929
I2	Caudate	2.6362	1.4446	2.0573
I2	Putamen	2.1919	1.1257	1.6389

Classification

Healthy control / Parkinson's disease classification:

Not implemented in the current backend version.

MRI atrophy quantification

Atrophy quantification of MRI:

Not implemented in the current backend version.

Quality control

Quality control: A

A = good execution with generated biomarkers; B = execution completed but biomarkers require review; C = failed execution.
